

```
/home/hover/Desktop  
/Labs/HUST_RFID_Labs  
/Lab2/13.56M/14443/One  
_Card_System/pages/connect  
_settingsdialog.h
```

The diagram illustrates the resolution of a file path. A large gray box at the top contains the full file path. Two blue arrows originate from the bottom of this box: one points to a box labeled 'QDialog' on the left, and the other points to a box labeled 'QtSerialPort/QtSerialPort' on the right. This suggests that the path components are being mapped to specific Qt framework classes.

QDialog

QtSerialPort/QtSerialPort
